Don Polak

Michael Gallagher

Nathan Thompson

Chris Heglund

Scott Volpe

Randy Jarvis

The 2006 Gate Overhaul Season was particularly challenging due to the delay in the schedule in the 1st quarter of FY 2006 caused by Hurricane Wilma, gate outsourcing challenges, and staffing vacancies throughout the year. The entire crew performed at a steady pace always mindful of achieving a high level of quality. They also managed to avoid any lost work days due to injuries, always keeping safety as the number one priority.

25 major gate overhauls were completed in FY 2006. 17 gates were completed in-house, and 8 gates were outsourced to various contractors. Overhaul work on the components associated with the outsourced gates was also completed in-house.

While being one man short the entire period, the crew began working overtime on a daily basis to keep up with the work flow. They also worked on Saturdays and Sundays to keep on schedule.
