

June Employee of the Month

Lourdes Barbeito - Sr. Project Controls Specialist

Enterprise Project Management Office

Lourdes is being recognized for her excellent coordination in preparing a modified one-page executive summary to report the results of the Tier 1 projects for presentation to the District's Leadership Team. The modified report was prepared for the 2nd quarterly update presented to the DLT on April 8, 2005.

Lourdes had only one week in which to coordinate with the Acceler8 program controls group (representing 15 of the 27 Tier 1 projects) and the remaining 12 Tier 1 project managers. She accepted this responsibility with great enthusiasm and conviction and accomplished the task.

Lourdes' efforts were critical to the success of the DLT presentation. She was complimented by many of the project managers for the manner in which she carried out her assignment and supported them.
