

December 2007 Team of the Month

Debris Management Plan for Emergencies Team

Office of Counsel -	Holly Walter
Corporate Resources -	Veronica Anderson
Operations & Maintenance -	Craig VanAuken Steve Fairtrace Linda Yarrish Keith Price
Everglades Restoration -	James Bridgeman John Leslie, III

This group was instrumental in developing the District's first Debris Management Plan for Emergencies. The plan has since been approved by FEMA allowing the District to be a participant in FEMA's Pilot Project for Public Assistance Enhancements.

I would also like to make a special recognition to manager, Dan Thayer, Division Director, Vegetation Management, who was instrumental in directing his staff to the completion of this document.

This effort required a great deal of research, coordination, cooperation and tenacity in order to reach this accomplishment.
