

March 2010 Employee of the Month

Toni Jackson, Business Management Analyst SR Staff

Ft. Lauderdale Field Station Division

In October of 2009, with an already heavy workload, Toni Jackson began providing oversight of the human resources, payroll and budget needs of the Homestead Field Station, after the retirement of their Business Management Analyst. The Business Management Analyst is a critical position to all field stations. A staff member was serving in this role on a temporary assignment.

Toni willingly assumed additional duties of providing guidance and training to this staff member. Toni also successfully managed to balance her workload to provide much needed assistance to the managers at the Homestead Field Station. Toni always goes the extra mile to ensure that the operational needs of Operations and Maintenance are fulfilled.

Toni is highly respected by her peers and management and is often called upon for assistance due to her vast knowledge and dedication. Toni always has a pleasant personality no matter how heavy her workload and is always willing to help when requested. She embodies the District's Values, "Honesty, Integrity, Focus, Team and Adaptability".
