**“Basis of Review for Water Use Permit Applications Within the South Florida Water Management District”  
Section 2.6.1(A)**

All public water supply utilities applying for an individual permit are required to develop and implement a water conservation plan. The water conservation elements of each plan need to be identified as part of the application. A timetable outlining the implementation schedule of each of the required water conservation elements will be required to be submitted or shown to already exist prior to issuance or renewal of a public water supply water use permit. The conservation plan shall be prepared and implemented for the service area incorporating, at a minimum, the following mandatory

1 components. For those components which require ordinance adoption, such ordinance  
2 should incorporate the entire boundary of the enacting jurisdiction. The Permittee shall  
3 provide a copy of the ordinances for each of the mandatory elements for which  
4 ordinances are adopted. The mandatory water conservation elements are as follows:  
5

6 A. The limitation of all lawn and ornamental irrigation to the hours and days  
7 specified in Chapter 40E-24, F.A.C., at a minimum, of 4:00 P.M. to 10:00 A.M. The  
8 ~~permit Applicant or enacting local government may adopt an ordinance which includes~~  
9 ~~exemptions from the irrigation hour restrictions for the following circumstances, irrigation~~  
10 ~~systems and/or users:~~

- 11 1. ~~Irrigation using a micro-irrigation system;~~
- 12 2. ~~Reclaimed water end users;~~
- 13 3. ~~Preparation for or irrigation of new landscape;~~
- 14 4. ~~Watering in of chemicals, including insecticides, pesticides,~~  
15 ~~fertilizers, fungicides, and herbicides when required by law,~~  
16 ~~recommended by the manufacturer, or constituting best~~  
17 ~~management practices;~~
- 18 5. ~~Maintenance and repair of irrigation systems;~~
- 19 6. ~~Irrigation using low volume hand watering, including watering by~~  
20 ~~one hose attended by one person, fitted with a self-canceling or~~  
21 ~~automatic shutoff nozzle or both or~~
- 22 7. ~~Users irrigating with 75% or more water recovered or derived from~~  
23 ~~an aquifer storage and recovery system.~~
