

# MEMO

To: Water Resources Advisory Commission - WRAC  
From: Kristin D. Jacobs  
Commissioner - District 2  
Date: April 4, 2007  
Subject: tem 3 - April 5, 2007 WRAC Agenda

The Broward County Water Resources Advisory Board (WAB) at their March 15, 2007 meeting approved a request to ask the members of the WRAC to reference the County's Greenway & Trail System in the BODR. The WAB is also concerned about consistency between the BODR and the PIR.

As a result I am proposing the following motion on Item 3:

**MOTION** to include a reference to the Broward County's Greenway & Trail System in the recreational element of the BODR.

Explanation: Adding language which references the County's planned Greenway along the Conservation Levee in the BODR will assist in Broward County's ability to secure later Federal cost share in this CERP related project. The trail system is recognized as an important north-south link in the County's Greenway.
