

**D R A F T (10/29/09)**  
**SOUTH FLORIDA WATER MANAGEMENT DISTRICT (SFWMD)**  
**WATER RESOURCES ADVISORY COMMISSION (WRAC)**  
**Proposed Recommendation to SFWMD Governing Board**  
**Thursday, November 5, 2009**

**Without objection, the Water Resources Advisory Commission (WRAC) recommends to the SFWMD Governing Board that SFWMD staff continue to explore the possibility of implementing a dispersed water storage and treatment program on private and public lands in the Northern Everglades. The WRAC further recommends that the Governing Board encourage SFWMD Staff to continue to identify suitable opportunities and configurations for such a program, and to continue to cooperate with Federal, State and private partners to identify and resolve any issues and concerns raised during the process prior to implementation of the program.**
