

Cost-Share Agreement with Collier County for Haldeman Creek Weir Replacement

Rod Braun, Principal Scientist
Everglades Policy and Coordination Division
Governing Board Meeting – November 10, 2016

Background

- Local Partnership Grants provide financial assistance for construction of stormwater management and alternative water supply projects that align with Big Cypress Basin Strategic Plan and/or Lower West Coast Water Supply Plan
- Collier County has requested financial assistance for replacement of the Haldeman Creek Weir
- Current condition of this structure results in poor drainage and salt water intrusion during seasonal high tides

Collier County Haldeman Creek Weir Replacement Project

- Construction of a new straight weir with gates and associated facilities upstream of the existing control structure will improve operations, maintenance, and functionality
- Staff proposes to enter into a cost-share agreement with Collier County for replacement of Haldeman Creek Weir
 - Estimated cost: \$2.0 million
 - District contribution not to exceed \$800,000 or 40% of eligible expenses
 - Contingent on Collier County Board of Commissioner's approval
- The new weir will improve stormwater conveyance, provide a salinity barrier and maintain dry season canal stages more effectively
