**ATTACHMENT A
USE OF RADIOACTIVE MATERIALS IN TEST WELL**

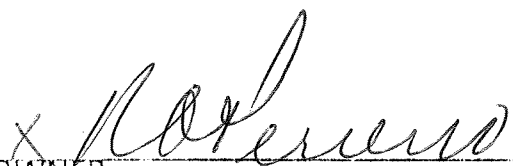

1. Property owner authorizes use of sealed nuclear source for geophysical logging purposes in test well construction.

2. In the event the sealed source is lodged downhole, every effort at recovery of said source will be utilized.

3. If a decision is made to abandon the sealed source downhole, it will be done so in compliance with Florida Administrative Code Section 10D-91.1200, Control of Radiation Hazard Regulations.

4. In the event the said source is lost downhole, South Florida Water Management District will be responsible for the protection from any contamination of the well and surrounding formation water from said source.

5. The Radiation Safety Officer of this agency is responsible for compliance with the above-mentioned Department of Health and Rehabilitative Services regulations.
