Fine to medium guartz sand w/		Fine to medium quartz sand	Fine to medium quartz sand	Dark colored fine	Dark colored fine	Dark to light gray fine to medium	Tan fine to medium quartz sand w/ limestone fragments	Dark quartz sand Soft weathered limestone
silt and weathered	limestone	Soft marl with some shell	Soft weathered limestone	to medium quartz sand	to medium quartz sand	guartz sand	Medium hard tan	Soft silty very fine
Soft weathered lime	stone	fragments and quartz sand	\B	Unconsolidated fine to medium quartz	Unconsolidated silty fine to medium quartz sand w/		oolitic fossiliferouis limestone	to fine quartz sand w/ <sup>⊟</sup> traces of shell
Soft clay and clay very fine to mediu	ey	Firm marl w/ some quartz sand and	Soft sandy marl	sand w/ traces of Phosphatic sand	traces of Phosphatic sand and	Unconsolidated medium to coarse	Interbedded layers tan fine grained quartz sand and soft light tan	fragments
quartz sand w/ small shells		shell fragments		increasing to corarse quartz sand at bottom	traces of small clay nodules from	quartz sand w/ traces of fine sand	limestone	Soft sandy marl w/ traces of shell
		Soft marl w/ some	Firm marl w/ traces of very fine quartz sand and shell fragments	Unconsolidated medium to coarse quartz sand w/	18 to 22 feet Firm gray clay with traces to some fine		Light gray fine grained sand Soft light gray fine quartz sand trace to some light gray marl	fragments and small cemented sand nodules
Unconsolidated fine to medium an coarse	d	quartz sand and shell fragments	Shell fragilients	traces of Phosphatic sand	quartz sand		Soft light gray marly fine quartz sand w/ trace to some shell fragments	
quartz sand w/ small shells and Phosphatic sand		Soft silty fine to medium quartz sand w/ some		Unconsolidated			Soft light tan fine	Firm marl w/ traces
		small shells and Phosphatic sand and traces of clay	Soft marl w/ traces of very fine quartz sand and shell fragments	medium to coarse quartz sand w/ traces of Phosphatic sand, cemented worm tubes and	Unconsolidated medium to corase quartz sand and	Soft fine quartz sand interbedded with layers of small to large shells	to very fine grained quartz sand w/ some shell fragmentsand traces of light gray marl	very fine quartz sand and lenses of small shell fragments
				cemented sand nodules	small shell fragments some clay	and traces of clay	Soft thin layers light tan fine to very fine grained quartz sand and shell fragments w/ light gray	Soft marl w/ traces
Firm sandy clay					Firm olive gray clay w/ traces of fine quartz	Hard gray	cemented sand nodules  Light gray fine grained sand w/ marl  Soft gray fossiliferous limestone w/	very fine quartz sand and lenses of small shell fragments/
Unconsolidated medium to coarse guartz sand w/			Soft marly quartz sand		sand Soft light tan	fossiliferous limestone w/ traces of fine	Soft gray fossiliferous limestone w/ traces of fine grained quartz sand	small cemented sand nodules Firm marl w/ traces very fine quartz sand
some to traces of small shells, Phosphatic sand			into quartz sand	Medium hard gray	fossiliferous limestone	grained quartz sand		and lenses of small shell fragments
and cemented sand nodules	[		Unconsolidated	fossiliferous limestone	Soft light gray fossiliferous			Unconsolidated very fine to fine quartz sand and
		Firm marl with traces of very fine quartz sand	medium quartz sand w/ some to traces of		limestone Hard light tan		Hard gray fossiliferous limestone w/ traces of fine grained quartz sand	small shell fragments and cemented sand nodules
			small shells and Phosphatic sand	Hard gray fossiliferous limestone	fossiliferous limestone	Hard gray fossiliferous limestone thin layer w/ coarse quartz sand	<u></u>	
		Soft sandy marl w/ some shells				Hard gray fossiliferous limestone w/ traces of coarse grained		Hard gray
			目			quartz sand	Very hard light gray to gray fossiliferous limestone w/ traces of fine grained quartz sand	fossiliferous limestone w/ traces of fine grained quartz sand
