Activity: **Inactivation** Effective Date: **6/28/2010** Start Date of Data :

Customer: **Garnett Ritchie** Bus. Area: **SIM** Agency: **SFWMD** Internal Order:

Fund: **101000**

Project Manager: **Blair Kennedy** Bus. Area: **SIM** Agency: **SFWMD** Contract #:

Project Name: **Hydrosite Rebuilds** Legal Mandate: **1972 Florida Water Resources Act**

Short Common Name / Description:	Wildcat Farms 2 - WF2
Proj. Mgr. Notes:	This site is being set to Inactive while it is being rebuilt. This action should take no longer than two weeks to accomplish. A new permanent reference elevation will be required since the stilling well and well head are being replaced. A temporary elevation of 200' will be used until the survey work is done. The CR10 program is not being changed, so a new array ID sheet is not necessary.
Site Directions:	From the entrance to the Co-Op farms, formerly known as Wildcat Farms, follow the provided map to the site. While driving on the levees maintain a safe speed to ensure your vehicles do not get stuck. When approaching the "on-ramps" to the levees ensure your vehicle is lined up in the middle of the ramp to prevent getting stuck in the soft sand.
